RE: Description: FY 2019 TIP Amendment Request
DTPW Project Name: First-and-Last Mile On-Demand Transit Service To/From Transit Stations Demonstration Project

Dear Ms. Bouclé,

The Miami-Dade Department of Transportation and Public Works (DTPW) is requesting an amendment to the current Miami Urbanized Area's 2019 Transportation Improvement Program (TIP) to add the First-and-Last Mile On-Demand Transit Service To/From Transit Stations Demonstration Project. The intent of the one-year demonstration project is to improve access to premium transit services in Miami-Dade County.

DTPW is proposing the development and deployment of a dynamically routed, on-demand, mobile app-based transit service model to provide nearby door-to-door rides to-and-from Metrorail stations in the Civic Center and Dadeland areas. The proposed service will serve first-and-last mile trips for commuters and ambulatory paratransit trips connecting to transit stations within defined services zones. The one-year demonstration project will be funded through the Florida Department of Transportation (FDOT)'s Congestion Mitigation and Air Quality (CMAQ) funding program for fiscal year 2019. The estimated project cost is \$800,000. The project was approved by the Transportation Planning Organization (TPO) Governing Board under Resolution #61-17 dated December 7, 2017, and is consistent with the TPO Program Priorities under the TPO Resolution #27-17.

Attached are copies of the TIP Amendment forms. Therefore, we respectfully request this item be presented to the Transportation Planning Council (TPC) at the January 2019 meeting and to the Transportation Planning Organization Board January 2019 meeting.

We appreciate your continued support. Please contact me if you have any questions.

Sincerely,

Alice N. Bravo, P. E.
Director
