Miami-Dade County

SMART PROGRAM DEMONSTRATION PROJECTS

OVERVIEW:

The Strategic Miami Area Rapid Transit (SMART) Program is advancing the implementation of premium rapid transit corridors within Miami-Dade County. In 2018, Miami-Dade TPO developed the SMART Demonstration Program to advance the SMART Program through partnerships with local transportation agencies and municipalities throughout the county. The program focuses on developing and expanding the first mile/last mile network to existing and future SMART Program transit stations. The program includes on-demand services and enhances integration of transit services at county and municipal levels. This program includes a mixture of federal, state, and local funding and has successfully funded 46 new mobility projects, exceeding 9.1 Million riders since the program's inception.
